

x MRX.batteryNest

SalesID: 2302-4031

Mounting basket system for MRX.battery and MRX.camera

- x Protection and mounting for MRX.battery on the trolley
- x Mounting options for MRX.camera
- x Universal drilling pattern for mounting third-party cameras
- x Stainless steel
- x Battery secured by attached plugs/cables

MRX.batteryNest serves as a robust holder for batteries and also allows a zoom camera to be mounted. Made of corrosion-resistant stainless steel, it offers a stable and weather-resistant solution for outdoor and industrial use.

A quick-install clamping mechanism allows the basket to be easily attached to supports. An integrated adjustment system allows precise alignment of the camera, even if the basket has not been mounted exactly. This ensures flexible and reliable positioning of the camera, even under difficult conditions.

Technical specifications

General

- System consists of 2 identical stainless steel baskets
 - ↳ 1st nest for MRX.battery
 - ↳ 2nd nest for MRX.camera
- Both parts are screwed together (back to back). The carrier between them is clamped in place and the system is secured.

Ambient conditions

- Operation: -40 to +85 °C
- Storage: -40 to +85 °C
- Relative humidity: 20-90%, non-condensing

Mechanics (single nest)

- ↳ Material: V2A stainless steel
- ↳ Surface: glossy
- ↳ 275x225x120mm (WxHxD)
- ↳ Weight: 1600g

Certificates

- CE, eMark regulations
- RoHS, REACH
- UL 94 V-0
