

## MRX.mountingPlate

Mounting plate for MRX.CraneRadio components

- x universal mounting plate
- x suitable for all MRX.CraneRadio components
- x interaction with Orlacos ball heads
- x 14 different mounting options
- x stainless steel

The mounting plate is ideal for quick installations on vehicles and machines that are not yet factory-prepared for the installation of MRX.CraneRadio.

Together with the ball head mechanism from Orlaco, the devices can be installed at all positions and aligned for the necessary requirements. Whether monitor, transmitter or receiver unit as well as the antenna, everything can be fixed on the mounting plate.

The plate can be halved to double the function.

### Mounting options
